

# DREADHEADS RETWIST METHODS

## **The Importance of Loc Retwisting.**

In addition, loose roots can cause your locs to become frizzy and uneven, which can affect the overall appearance of your hair. By retwisting your locs, you can keep them looking neat and tidy, and prevent them from becoming damaged.

## **CROCHET RETWIST**

## **INTERLOCK**

## **COMB RETWIST**

# DREADHEADS RETWIST METHODS

*RECOMMENDED*

## *CROCHET RETWIST*

### PROS

- + PROVIDES AN INSTANT WAY OF CREATING DREADLOCKS
- + REQUIRES NO ADDITIONAL PRODUCTS OR CHEMICALS
- + ALLOWS TO CREATE MORE DEFINED DREADLOCKS BY USING A CROCHET HOOK
- + WORKS EFFECTIVELY WITH ALL HAIR TYPES, REGARDLESS OF TEXTURE OR THICKNESS
- + PROVIDES A NATURAL LOOK
- + REQUIRES MAINTENANCE EVERY 4-6 WEEKS, WHICH MAY BE LESS FREQUENT THAN OTHER METHODS OF MAINTAINING DREADLOCKS.

### CONS

- MAY NOT BE AS WIDELY USED AS OTHER METHODS OF CREATING AND MAINTAINING DREADLOCKS, WHICH CAN MAKE IT MORE DIFFICULT TO FIND EXPERIENCED LOCTICIANS
- SOME PEOPLE MAY FIND THE PROCESS OF CROCHETING TO BE PAINFUL OR UNCOMFORTABLE
- CAN BE A TIME-CONSUMING PROCESS

# *DREADHEADS RETWIST METHODS*

## *INTERLOCK*

### *PROS*

- + INTERLOCKING TECHNIQUE MAINTAINS HOLD EVEN IN SITUATIONS OF SWEATING OR WASHING, WHICH IS NOT THE CASE WITH COMB RETWISTING*
- + WITH INTERLOCKING, YOU CAN WASH YOUR HAIR MORE OFTEN.*

### *CONS*

- THE INTERLOCKING METHOD CAN POTENTIALLY RESULT IN HOLES IN YOUR LOCS*
- INTERLOCKING CAN CAUSE BREAKAGE AND HAIR THINNING BECAUSE OF THE SIGNIFICANT STRESS IT PUTS ON YOUR ROOTS AND SCALP*
- DREADLOCKS CREATED THROUGH INTERLOCKING CAN HAVE BUMPS ALONG THEIR LENGTH, WHICH CAN MAKE THEM APPEAR LESS SMOOTH THAN THOSE CREATED THROUGH CROCHET OR PALM ROLLING*

# DREADHEADS RETWIST METHODS

## COMB RETWIST

### PROS

- + PROVIDES A CLEAN AND POLISHED APPEARANCE, AS IT CREATES A VERY NEAT AND PRECISE LOOK.
- + CAN BE QUICKER THAN OTHER METHODS.

### CONS

- INCREASES THE CHANCES OF THE HAIR UNRAVELING OR BECOMING LOOSE, WHICH CAN REQUIRE FREQUENT RE-TWISTING TO MAINTAIN.
- MAY NOT HOLD UP AS WELL AGAINST WATER, AS IT CAN CAUSE THE HAIR TO BECOME FRIZZY OR LOSE ITS SHAPE.
- CAN LEAD TO DAMAGE OR BREAKAGE IF DONE IMPROPERLY OR TOO FREQUENTLY, WHICH CAN MAKE IT NECESSARY TO SCHEDULE A RETWIST SOONER THAN EXPECTED.
